

Multilevel Interventions for Improving Health Equity

*Meredith Minkler, DrPH, MPH
Professor Emerita
School of Public Health, UC Berkeley*

*Lerner Center for Public Health Promotion
Columbia University
April 28, 2017*

Social Ecological Model

CDC adaptation of the social ecological model (SEM) of health promotion.

<http://www.cdc.gov/cancer/crcp/sem.htm> &

<http://www.cdc.gov/nccdphp/dnpao/state-local-programs/health-equity/framing-the-issue.html>

Multilevel Interventions

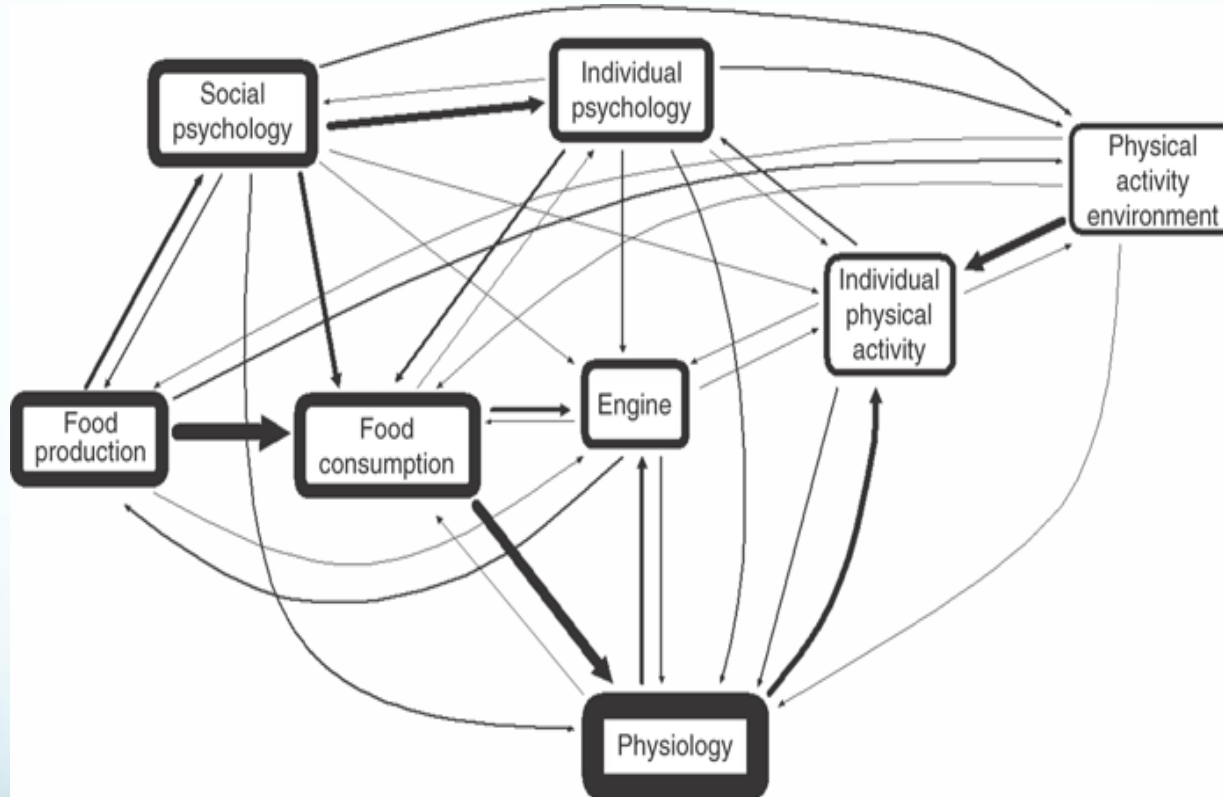

“Interventions with multiple components designed to affect factors in two or more levels of the local ecology which contribute to wellness and illness, with the goal of effecting changes *within and between levels.*”

[Re. healthy equity], MLIs *must target the contextual or SDoH at multiple ecological levels that create and maintain inequities*

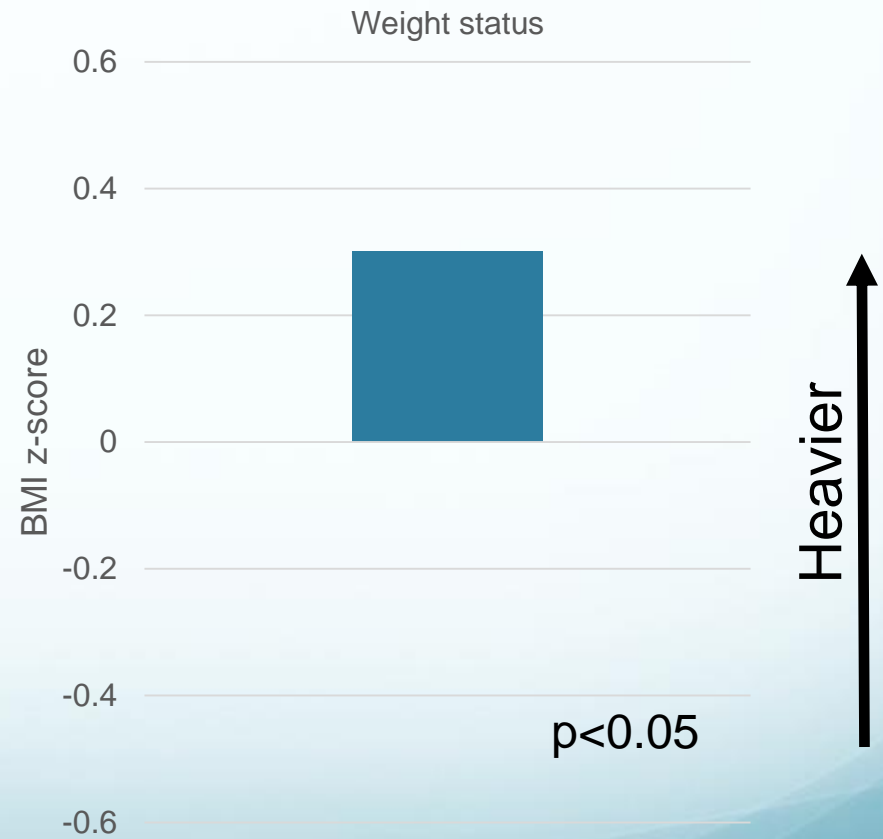

Trickett & Beehler, 2013

“Simplified” conceptual map of interdependent determinants of obesity

Finegood et al., 2010

Active commuters to school “were fitter, but fatter”

Energy balance?

30 minutes = 360 Cals

5 minutes = 360 Cals

Community engagement in MLIs can improve:

Identification of problems and factors that matter

Participation rates

Validity & reliability of research instruments

Cultural, social acceptability of interventions

Interpretation of findings and policy, practice relevance

Sustainability of MLI over time

Chinese Immigrant workers health & safety study and MLI: Correcting researchers' assumptions; improving policy relevance and outcomes

Chang et al., 2014; Minkler et al., 2011

Challenges in conducting & evaluating MLIs

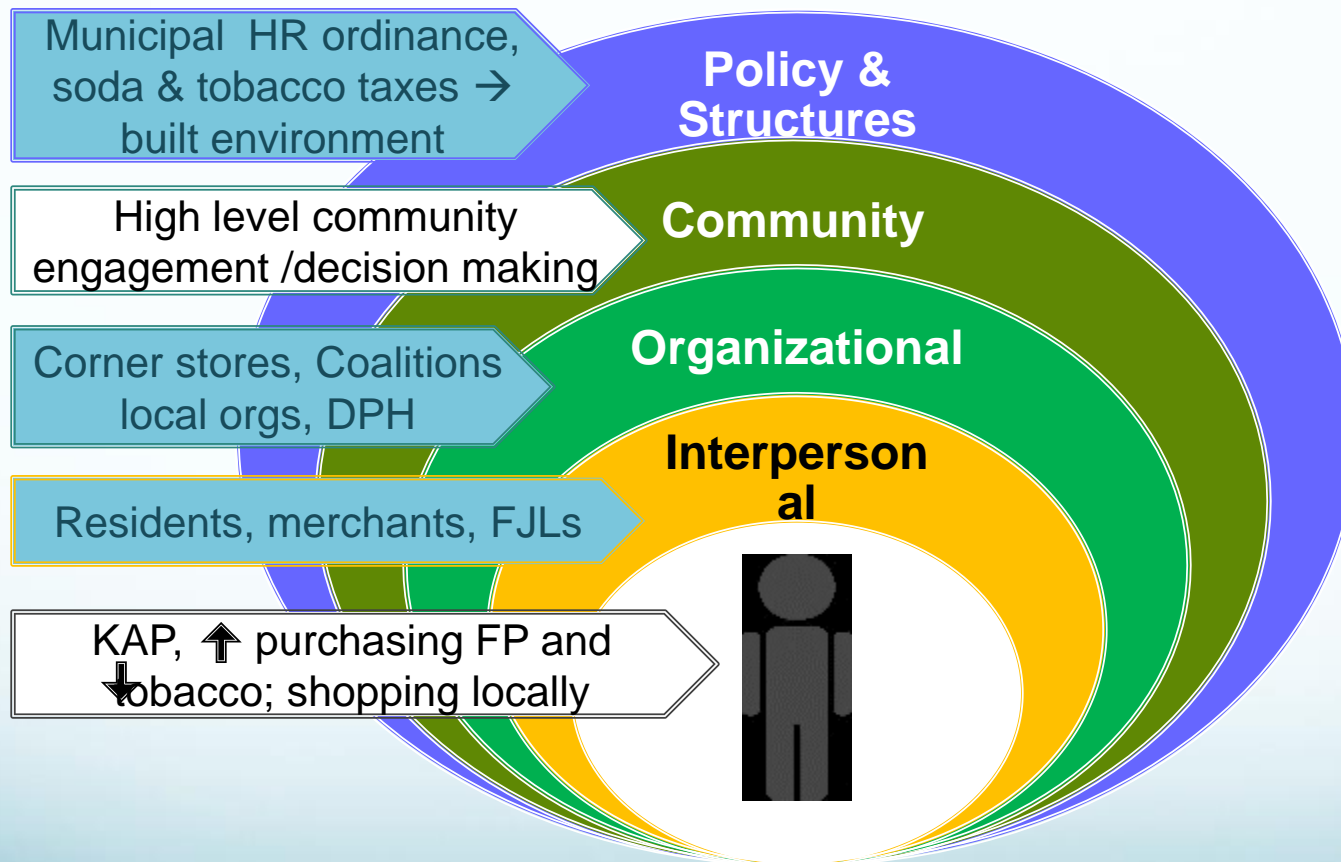

- **Most MLIs = Multi *target* interventions**
- **Insufficient focus on:**
 - Conceptual frameworks
 - Group, organization, or community levels
 - Measurement issues
 - reliability and validity
 - power and sample size
- Measurement issues specific to MLIs
 - lack of independence
 - complexity of analyzing cross-level interactions

Community context: Tenderloin District

73 corner stores,
no full serve grocery

Highest tobacco outlet density

*Organizational level**

local healthy retail coalitions

- Engage local NGOs, DPH, merchants & residents
- Determine goals, strategies/ work collectively in research and action components
- Hire, train FJLs re. food systems, research methods, outreach & advocacy
- Build trust with merchants, leverage interpersonal networks, exercise community leadership and lived experience
- Resident and store level data collection (intercept, door to door surveys, store assessments)

Coalition FJLs piloting new store observation tool outside their neighborhood

*** with caveat!**

- 69-item “corner store retail standards for health and sustainability”
- ~ 66% participate (n= ~ 52/ year) 2013-2015

Tenderloin Neighborhood Healthy Shopping Guide 2013 Report

Within the past year, the Tenderloin Healthy Corner Store Coalition's (TLHCSC) resident Food Justice Leaders and the San Francisco Department of Public Health's (SFDPH) Feeling Good Project visited over 70 food stores in the Tenderloin. Stores were assessed using the TLHCSC *Healthy Retail Standards* and Communities of Excellence (CX3) tools, and then rated on the types and quality of food sold, product placement, cleanliness and safety, amount & type of advertisements, consumer education, and fair labor. The rating system below is based on a 4 star scale.

Since there is no full service grocery store in the neighborhood, the goal of this shopping guide is to **highlight local food stores that sell healthy everyday groceries WITHIN the Tenderloin**. You will be surprised to see how many great products our neighborhood has to offer! *Please shop and support your Tenderloin neighborhood food stores!*

TLHCSC Store Standard Rating System:

80-100% = 4 stars	★ ★ ★ ★
60-79.9% = 3 stars	★ ★ ★ ☆
40-59.9% = 2 stars	★ ★ ☆ ☆
20-39.9% = 1 star	★ ☆ ☆ ☆
Less than 20% = no stars	☆ ☆ ☆ ☆

WIC = Women, Infants, and Children Program
EBT = CalFresh (food stamps electronic cards)

Three Streams in Policy Making

convincing decision makers a
problem exists

Problem stream

“Stories and statistics” re. food
insecurity, revenue base

City supervisor’s tour of food
swamp

Media advocacy

Proposing feasible, politically attractive solution

Politics Stream: Earlier pilot store shows sustained increase in sales, profits, at low cost 2003- 2007

Pilot store: 10% drop in tobacco sales 4mo → 4 + years; 12% increase produce sales & profits; to 17% before Great Recession

Hennessey-Lavery et al., 2005; Breckwich Vasquez et al., 2007

negotiate politics to get approval of the proposal

Politics stream

- Win over key opponent
- More media advocacy
- Testimony at hearings
- Demonstrate wide support
- Low cost to gov. <\$60,000/yr.
- Strong accountability
- Public private partnerships

Politics stream: accountability

SEFA Corner Store Standards for Health and Sustainability Assessment					
Corner Store Name	Location	Retail Food Standards	Data Gathered (count, ratio or Yes/No)	Nearest to Street Standard	Comments
Foodies rt	1397 Faversham	1. Stock low-fat (2%) varieties milk (no added sugar)	0		only whole milk in gallons and 1.5% fat in 2 litre milk
Foodies rt	1397 Faversham	2. Stock low or no-salt yogurt (no added sugar)	0		none, only stock of full fat yogurt 1.5% fat in 2 litre

Evaluating *impact of Healthy Retail SF* on store sales and availability of fresh produce & tobacco

- **Store assessments:** 2 group comparison design with pre/post tests using data from ~52 stores' assessments over 4 years
- **Sales data:** Monthly POS (point-of-sale) data from participating stores
- **Qualitative data:** Merchant interviews, focus groups

Flood et al., 2015

Changes in overall store ratings 2013-2015

Note: Total number of stores each year ranged from 52-56. Stars refer to percent of standards met: 1 star: 20-39.9%; 2 stars: 40-59.9%; 3 stars: 60-79.9%; 4 stars 80-100%.

80-100% = 4 stars

60-79.9% = 3 stars

40-59.9% = 2 stars

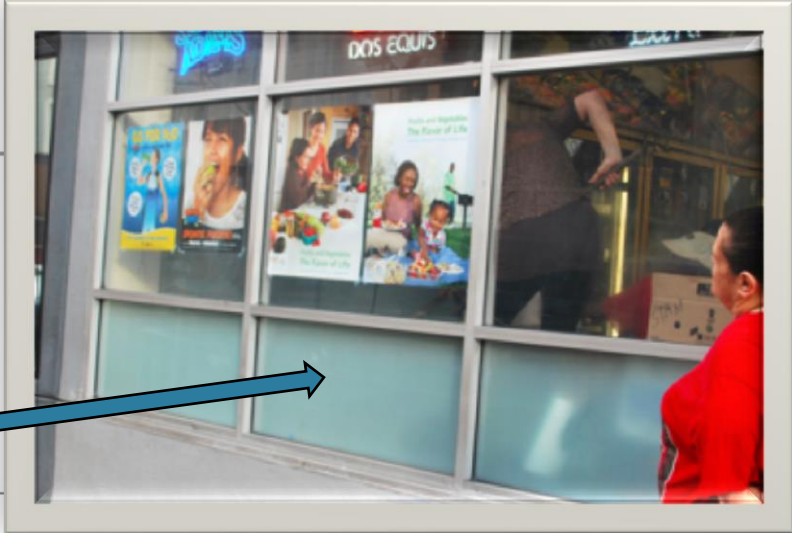

20-39.9% = 1 star

Less than 20% = no stars

Monthly “report card” store visits re. adherence to IDPs

Healthy Retail SF Store Report Card		
Store: <u>Daldas Grocery</u> CFA: _____ Date: _____		
2. Alcohol & Tobacco	Score (scale of 1-5)	Comments
<p>15. No resources from this project (including schematics, technical assistance, shelving or refrigeration) may be used to introduce or expand any alcohol or tobacco products or product displays in the store.</p>		
<p>16. No displays of any exterior alcohol or tobacco ads to covering over 30% of windows/storefront.</p> <p>No alcohol/tobacco ads near kids (below 5 feet). Healthy promotional posters/ads and other materials (i.e. shelf talkers, wobblers, price tags, etc.) are still up to replace these alcohol and tobacco ads.</p> <p><i>Over time, agree to take down all tobacco and alcohol ads and replace with positive healthy promotion posters/materials.</i></p>		
<p>17. No alcohol/tobacco on credit. Put clear signage stating this policy.</p>

The Tenderloin Healthy Corner Store Coalition helped Fadhil Radman update his store and offer more produce. The City will soon give similar help to more shops.

On Wednesday afternoon, 60-year-old Augusto Reguindin walked across the street from his Tenderloin apartment with a shopping bag. He was heading to Radman's Produce Market for something that's hard to find in the neighborhood: fresh and healthy food.

HRSF Evaluation Framework

THE OFFICE OF ECONOMIC AND WORKFORCE DEVELOPMENT
THE DEPARTMENT OF PUBLIC HEALTH

HEALTHYRETAILSF

RESIDENT SURVEY

Ana's Market (Broad & Plymouth) has been chosen to participate in a special "re-design" program and will soon be offering additional food products. Please fill out this survey to help the program and store owners better serve your food and beverage purchasing needs in the neighborhood. Your responses will remain anonymous.

Demographics

Age	Gender	What are the Cross Streets of your Residence?	
What language(s) do you speak at home?		Household Size?	How many children (under 18)?

Shopping Habits

1. Where do you shop for your groceries? Please check all that apply and specify the name of the store.

Chain supermarkets, name(s): _____

Neighborhood Market/Convenient stores, name(s): _____

Farmers' markets, which one(s): _____

Other: _____

2. How often do you shop for groceries?

At a chain supermarket?

Never 1x month 2x month Every Week 2x a Week Almost Everyday

At a neighborhood market/convenient store?

Never 1x month 2x month Every Week 2x a Week Almost Everyday

At a farmer's market?

Never 1x month 2x month Every Week 2x a Week Almost Everyday

3. Have you ever shopped at Ana's Market (105 Broad Street, between Plymouth & Capitol)?

Yes No I don't know I've heard of/seen Ana's, but have never shopped there

4. How would you rate this store, in general, compared to other stores you shop at? (1= This store is the worst ; 10= This store is the best)

1 --- 2 --- 3 --- 4 --- 5 --- 6 --- 7 --- 8 --- 9 --- 10

5. What would you like to see at Ana's Market for you to shop there more often? N/A, I've never been

Accept EBT Accept WIC Lower prices Coupons/Discounts/Rewards

Larger variety of meat & poultry Physical changes in the store (cleanliness, look of the store)

Larger variety of produce Better Customer Service

Better organization

The Invest in Neighborhoods program is helping the community thrive, safe, resilient, and healthy. Through individualized attention and resources, the program is helping to increase healthy food options in the neighborhood.
